

# Church Assessment and Implementation Tools Available from South Roanoke Baptist Association

## Church Health Survey

- A comprehensive study of the current state of health of your congregation as reflected in effectiveness in Discipleship, Evangelism, Fellowship, Worship and Prayer. The survey devised by the Rainer Group and administered by the Lawless group reports back to you a detailed summary of the health of your church. The major benefit to you is that you get an accurate reflection of what the congregation themselves perceive as to the ministry effectiveness.

## Taking The Pulse of Your Church

- A collection of tools to use with your leadership team. Each tool has been designed to help you and your team measure some dimension of ministry.

## Church Safety and Risk

- A collection of tools to use with your leadership team. Each tool has been designed to help you and your team measure how well you ensure safety and security in your church environment

## Welcoming Church Assessment and Implementation

- A tool to allow you to effectively measure the welcoming nature of your congregation and a pathway to implement the practices that raise the level of return of church visitors.

## Worship Style Conflict

## Attracting First Time Volunteers

## Church Leader Purity

## Church Staff Evaluations

## Connecting Newcomers

## Identify Your Core Values

## Creating Community

**Identify and launch New Leaders**
